Orchid Orthopedic Solutions is a worldwide leader of medical device outsourcing services, providing expertise to partners in more than 20 countries through a complete offering that ranges from design and development to finished goods manufacturing. One of Orchid’s goals is to be the market leader and our customers’ strategic partner by providing reliable results, developing new technologies and creating the best total supply chain value in the industry.

Concurrent product and process development, optimal size and streamlined, scalable, processes get you to market faster.

Our customers trust us as a design and manufacturing partner, and have the same confidence in us to take their product from concept through manufacturing and final packaging.

Because Orchid is vertically integrated, your product can be designed, manufactured, packaged and sterilized in one stop, saving you time, money and resources.

ABOUT ORCHID

Faster Time to Revenue

Confidence in Your Final Product

Orchid Supply+

Quality, speed and cost will make your product a reality sooner.

Make your ideas a reality.

Faster Time to Revenue
Concurrent product and process development, optimal size and streamlined, scalable, processes get you to market faster.

Confidence in Your Final Product
Our customers trust us as a design and manufacturing partner, and have the same confidence in us to take their product from concept through manufacturing and final packaging.

Orchid Supply+
Because Orchid is vertically integrated, your product can be designed, manufactured, packaged and sterilized in one stop, saving you time, money and resources.

PACKAGING AND TEST EQUIPMENT

Class 7 Clean Rooms, Packaging and Test Equipment, Plus Sterilization and Validation Expertise

Orchid has committed our best resources to provide you with sterile packaging capabilities. With two ISO 7 (Class 10,000) qualified clean rooms, state-of-the-art automated packaging and test equipment, sterilization and validation expertise and a team with years of experience in medical device manufacturing, you can be sure your next packaging project is in good hands.

As a leader in the design and manufacturing of orthopedic implants and instruments, Orchid is ahead of the curve in terms of validation and quality requirements. Let us take your orthopedic products from concept all the way through to delivery, or just utilize our sterile packaging expertise to help you with design considerations and provide packaging support to bring your product to market quickly.
